

Twenty-fourth Volume—From January, 1931, to December, 1931

General Index

[Illustrated articles are indicated thus*. Editorials are indicated thus†]

- A**
- Accidents:
Collision on Monon..... 431
Collision on Rock Island..... 25
Drivers of Motor Vehicles Can't Wait for Trains..... 328
Engineman Mistakes Indication..... 416
Engineman Overlooks Signal..... 419
Grade Crossing in California..... 282
Grade Crossing, Reduced..... 71
Grade Crossings..... 398
Hoover Congratulates American Railways on Prevention..... †219
L. & N..... 55, 217
Motor Car..... 312
In Train-Control Territory..... 23, 268
Reduction of..... †219
Report on Readville..... 130
Southern..... 242
32 Per Cent Decrease on Pennsylvania..... 146
Acetylene Generator..... *431
Acid:
Loosens Broken Taps..... 106
Adjustments:
Switch-Point Gage Facilitates..... *107
"Advance Guards"
Westinghouse Electric & Manufacturing Co. Circular..... 264
Aerial Cable:
Or Open Line for Coded C. T. C. 224
Air and Steam:
Difference Between..... 71
Air-Buffer:
Special Wrench for Style-B..... *326
Repacking..... *141
A-C. Polarities:
How to Determine..... 64
All-Electric Locking:
Where Feasible..... 393
All-Relay Interlocking:
Cost of Operation and Maintenance..... 393
Expedites Traffic on B. & M..... *153
Aluminum:
Sleeve Joints in High Tension Lines..... *259
For Motor Cars..... 186
American Railway Association:
Circular of Safety Section..... 435
Hadley Head of Train Control Committee..... 398
Highway Crossing Protection..... †62
Joint Committee's Stop Signs..... *98
Report of A.R.E.A. on Crossing Signals..... *124
Safety Section Meeting at Chicago..... 193
Signal Section Meeting..... 71, 146, †131, *175
Signal Section Meets in New York..... *175
T. & T. Section Cancels Annual Session..... 328
American Railway Engineer Association, A. R. A.
Approved Report of Committee on Grade Crossings..... †131
American Railway Signaling Principles and Practices:
Binders for Pamphlets..... 193
American Standards Association:
New Standards for Wood Poles..... 210
Anchors, Chance:
Nut Retainer for..... *192
Annunciator Circuit, Time-Delay..... *190
Approach Circuits:
Simple..... *397
Approach Control:
Makes Electric Lighting Economical..... 324
Approach Electric Lighting:
Cheaper..... 324
Approach-Lighted Signals:
Track-Shunting Devices to Determine Indication Unsafe..... 189
Argentine Crossing Signals..... *130
Arresters, Lightning:
Hi-Speed..... *262
Artificial Track Circuit..... *413
Aspects, Proceed:
For Isolated Home Signals..... 31
Atchison, Topeka & Santa Fe:
Centralized Traffic Control..... *118
Treated Timber for Signaling on 344
Atlantic Coast Line:
A.P.B. Searchlight Signals on the Automatic Signals..... *111
C. & O., Expedite Traffic on..... *243
C. & N. W., Three Track, on..... *15
Construction..... 109
Developments in..... †28
French Railways Adopt Color-light..... *51
Lackawanna Electrified Territory..... *168
Light-Out Protection..... *279
Maintenance Cost..... †251
M. C. Makes Improvements in System..... *157
Mileage Increases Substantially in 1930..... *347
Modernization on Metropolitan Railway of London..... *283
Naperville Jct. Ry. & D. H..... *149
N. Y. C. Re-Signals Track Entering Grand Central Terminal..... *164
Normal-Danger..... 134
On Big Four..... *417
Philadelphia Terminal of Pennsylvania..... 89
Pennsylvania Completes from New York to St. Louis..... 35
Placing in Service..... 248
Re-Signaling the Reading Electrified Territory..... 303
Rectifier in..... †353
St. J. & G. I..... *406
Typical Plans for..... 253
When Out of Service..... †285
Automatic Electric, Inc.:
Proprietor of Strowger-Hudd Automatic Train Control..... 398
Automatic Interlockers:
See Interlockers, Automatic..... 352
Automatic Power Transfer Equipment:
Roller-Smith Co..... *432
Automatic Switch:
For Use with Motor-Generator Charging Sets..... *292
Automatic Train Control:
British Report on..... †61
Cab Signals and Whistle Permitted Over Divisions Equipped for..... 87
Great Western of England..... *59, 362
Michigan Central..... *157
Strowger-Hudd..... 398
Accidents in, Territory..... 268
- B**
- Ballast:
Track-Circuit Operation Where Conditions are Unsatisfactory Tests on Cinder-Ballast Track Circuits Show Savings in Operating Costs..... 385
Ball-Bearing Loose Wheels:
Motor Cars and Trailers..... *434
Baltimore & Ohio:
Construction..... 298, 329, 363
All-Electric Plant for Protection of Automatic Interlocker Protects Gauntlet Track..... *42
Batteries, Primary:
For Switch-Lamp Lighting..... *144
Batteries, Storage:
Efficient Filler for..... *191
Gage for Filling..... *106
Location in Automatic Interlockers..... *137
Operation of Track Circuits by Device to Hold Current Output Constant, on Track Circuit..... 136
Battery:
Edison Type-C..... 327
Battery Chargers:
Fansteel Products Company..... *261
Battery Filler:
Storage..... *295, *360
Battery Housing:
Le Carbone Company Waterproof *144
Battery Ignition:
Locating Trouble..... 257
Battery, Track:
Current Regulating Device to Hold Current Output Constant Biddle Company, James G.:
Pocket Manual of Megger Practice..... 194
Binders:
For Instruction Pamphlets..... 193
Blue Prints:
For Checking Purposes..... 254
Board of Transportation of the City of New York:
Construction..... 109, 298
Bonding, Low Resistance:
Track Circuit Operation in Tunnels..... 290
Bonding, Rail:
Present Practice in..... *420
Bonding Tool:
Combination..... *34
Bonds:
Copper-Core Steel..... *142
Bonds:
Electric Carbon Arc Welding to Install..... *209
Boatlegs:
Templet for..... *227
Boston & Albany:
Construction..... 363
Boston & Maine:
All-Relay Interlocking Expedites Traffic..... *153
Centralized Traffic Control..... *44, *371
Construction..... 147
Moving a Large Signal Tower..... 193
Braces, Rail:
Shim for..... 190
British Report on Automatic Train Control..... †61
Brushes, Paint:
Preserving..... 141
Buda Company:
Buda-Hubron Earth Drill..... *144
Buffers, Style-S Air:
Repacking..... *141
Bureau of Safety:
Annual Report..... 21
Report on Readville Collision..... 130
Bureau of Standards:
Research on Electrical Conductivity..... 399
Burgess Battery Company:
Light-Sensitive Cell..... *295
Photo-Electric Control Units..... *433
Vacuum Contact..... *261, *432
Light-Sensitive Cell Known as..... *295
- C**
- Cab Signaling:
I. C. C. Approves Pennsylvania..... 87
Pennsylvania..... *1
Cable Duct:
Installing at Highway Crossings 69
Cable, Aerial:
For Coded C.T.C..... 224
Cable Knife..... *190
Cable, Parkway:
Applications on the N. P..... *241
California Railroad Commission:
Annual Report of Formulates Requirements of Automatic Interlockers..... 80
Specifications for Automatic Interlockers..... 352
Call-On Signals:
Under What Operating Conditions Should Be Used..... 288
Canadian National:
Construction..... 109, 363
Canadian Pacific:
Cadorna Interlocking at Quebec..... *237
Construction..... 147, 263, 328
Electric Carbon Arc Welding to Install Signal Bonds..... *209
Modern Interlocking..... *24
Carbon Arc Welding, Electric:
To Install Signal Bonds on C. P. *209
Carboy Tilter:
Schwenk Safety Device Corp..... *433
Car Retarder Installations..... 138
Car Retarders:
Erie Installs in Marion Yard..... *115
Germany..... *54
N. Y., N. H. & H..... *11
Stanley Yard on N. Y. C..... *299
Cars, Inspection Motor:
Too Heavy?..... 186
Caustic-Soda Primary Battery Elements:
Marking..... 259
Cells, Photo-electric:
Weston Electrical Instrument Corp..... *361
Centralized Traffic Control:
Boston & Maine..... *44, *371
Central of New Jersey..... *73
Definition for..... †218, 289
Delaware & Hudson..... *37
Economy of Smaller Towers Eliminates Train Stops..... †185
Erie..... *273
Maintainers..... 427
M. P. Installs..... *206
Peoria & Pekin Union..... *195
Open line or Aerial Cable for Point Detector or Switch Circuit Controller for Switches..... 255
Santa Fe..... *118
Solve Problem on Erie with Mechanical Interlocking and..... *273
Wabash..... *231
Without Power-Operated Switches..... 138

- Central of New Jersey:
Centralized Traffic Control..... *73
Light-Out Protection..... 63
- Chance Company:
James R. Kearney Corporation
Merge With..... 399
Nut Retainers for Anchors..... *192
- Chargers, Signal-Battery:
Fansteel Products Company..... *261
- Checking:
Back-Indication..... 392
- Check Valves, Air-Buffer:
Special Wrench for Style-B..... *326
- Chesapeake & Ohio:
Automatic Signals Expedite Traffic on..... *243
Construction..... 363
Chestnut Pole Timber..... 435
- Chicago & Illinois Midland:
Construction..... 36
Installs Electric Interlocking..... *335
- Chicago & North Western:
Collision with C. M. St. P. & P... 109
Remotely-Controlled Interlocking..... *85
Three-Track Signaling..... *15
- Chicago, Burlington & Quincy:
Construction..... 229, 297
Electric Interlocking..... *80
Signal Repair Shop at Aurora, Ill. *56
- Chicago Great Western:
Saves \$7,000 Annually by Remote Control..... *201
- Chicago, Indianapolis & Louisville:
Head-End Collision..... 431
- Chicago, Milwaukee, St. Paul & Pacific:
Collision with C. St. P. M. & O. *204
Construction..... 193, 297
Crossing Protection Signals on..... *316
Line Constructed Jointly with C. R. I. & P..... *365
Remote Control for Interlocking Saves \$6,000 Annually..... *345
- Chicago, Rock Island & Pacific:
Construction..... 297
Interlocker..... *13
Line Constructed Jointly with C. M. St. P. & P..... *365
Twelve-Track Yard Indicator..... *126
Wins Train Control Patent Suit..... 71
- Chicago, St. Paul, Minneapolis & Omaha:
Eliminates Nearly 20,000 Train Stops Annually..... *337
- Cincinnati Railway Signal Club:
Synchronous Selector Supervisory System..... 399
- Cinder Ballast:
Tests on Track Circuits Show Savings in Operating Costs... 385
- Circuit, Annunciator Time Delay... *190
- Circuit Plans, Signal:
Preparation of..... 253
- Circuits:
Artificial Track..... *413
Central Battery System Satisfactory If Amply Protected..... *137
For Signal Demonstration..... *227
Locating Grounds..... 359
Power-Saving Approach-Lighting make Possible Exclusive Use of Primary Batteries... *111
Simple Approach..... *397
Ohm's Law Simplified..... *292
- Circuits, Highway Crossing:
Permit Switching Movements... *236
Conversion from Normal Stop to Normal Clear..... 134
Selected Through Independent Track Circuits..... 321
Track, See Track Circuits.
- Clamp, Switch-Point..... *326
- Classification Yards:
Rapid Classification in Germany *53
- Clay Conduit:
National Fireproofing Corp..... *433
- Clearance Measurement:
Height of Overhead Objects Above the Rails..... 293
- Cleveland, Cincinnati, Chicago & St. Louis:
Installs Signaling on Double Track..... *417
- Closed-Circuit Gravity-Return Principle:
Should Obtain..... *100
- Code:
National Electrical..... 362
- Coded C. T. C.:
Aerial Cable or Open Line..... 224
Conductivity Basis in Determining Size..... 224
- Coils:
Sealing Wax for..... 107
Motor-Driven Adjustable Winder *68
- Coleman, J. P.
Rounds Out 50 Years Service... *249
- Collision:
See Accident.
- Color-Light Signals:
Back-Indication Checking..... 392
- Color-Light Train-Order Signal:
M. C. Make Improvements in Signaling System..... *157
- Competition, Railway:
Waterways Unfair..... †132, †320
- Conductivity, Electrical:
Bureau of Standards Research on 399
- Conduit:
New Clay..... *433
- Conduit Lines, Signal:
Pennsylvania..... 329
- Contacts:
How to Test Quickly..... *191
Silver-Impregnated-Graphite..... 291
Testing..... *426
- Continental Diamond Fibre Company:
"Diamond Vulcanized Fibre".... 148
- Continuous Electric Lighting:
Cheaper..... 325
- Control Circuit:
For Switching Movement at Sid-ing Switch..... *236
- Control Relays:
Back-Indication Checking..... 393
Where to Locate..... 256
- Conventions:
Signal Section, A. R. A. in May... †131, *175
- Copper Wire:
For Soldering in Tight Places... 258
- Corning Glass Works:
Signal Glassware for Railroad, Marine and Traffic Service... 298
- Court Decision:
On Semaphores..... 264
- Crossed Poles:
Bulletin..... 330
- Crossing Circuits:
Permit Switching Movements... *236
- Crossing Laws, Grade:
In New Zealand..... 71
- Crossing Signals, See Highway Crossing Signals:
- Crossings, Highway Grade:
Accidents..... 328
Protection at..... 330
- Crossings, Light-Traffic:
Mechanical Gates Protection Solves Problem..... *337
- Crouse-Hinds Company:
Threadless Condulets, Couplings and Connectors..... 194
- Current Regulation:
Track Circuit..... 136
To Hold Current Output of Track Battery Constant..... 103
- Cutout Switch, Automatic:
For Use With Motor-Generator Charging Sets..... *292
- D**
- Dayton Union:
Construction..... 297
- Dead-End for Line Wires:
Single-Loop..... *68
- Delaware & Hudson:
Centralized Traffic Control..... *37
Signaling on Naperville Jct. Ry. *149
- Delaware, Lackawanna & Western:
Maintenance of Signaling..... †251
Manually Operated Tag-Marking Machine..... 220
Portable Telephones in Signal Work..... 248
Signaling of Electrified Territory *168
- Denver & Rio Grande Western:
Construction..... 298
- Department of Railways and Canals:
Construction..... 229
- Derailments:
See Accidents.
- Derails:
In Passing Sidings..... 30
- Detector Locking:
Special..... 256
- Direct-Current Circuits:
Ohm's Law Simplified..... *292
- D-C Power Unit:
Fansteel Products Company, Inc. *108
- Direct-Current Relays:
Residual Magnetism..... 427
- D-C Test Set:
Has Wide Range of Usefulness... *33
- Distant Signals:
Checking Indication of..... 392
Scotch Invention..... 362
- Drill, Earth:
Mounted on Ford Truck..... *144
- Drill, Hand:
Guide for..... 141
- Dual Control Switch:
Operation by Hand on D. & H... 40
- Dynamometer, Strand:
Reliable Manufacturing Company *294
- E**
- Earth Drill, Buda-Hubron:
Mounted on Ford Truck..... *144
- Economy of Smaller Towers..... †96
- Edison, Thomas A.:
Death Calls Great Inventor..... *388
- Edison Storage Batteries:
Gage for Filling..... *106
Type-C Battery..... 327
- Electrical Code:
National..... 362
- Electrical Power Equipment:
For Signaling Systems..... †133
- Electric Carbon Arc Welding:
To Install Signal Bonds on C. P. *209
- Electric Lighting:
Approach Control Economical... 324
- Electric Locks:
For Mechanical Interlocking Machines..... 102
For Spring Switches..... *143
For Switches..... 322
- Electric Lock for Latch:
With Force-Down Features.... 103
- Electric Storage Battery Co.:
Exide Battery Filler..... *295
- Electric Switch Lamps:
Oil or..... 324
- Erie:
Construction..... 35
Increases Track Capacity..... *273
Installs Retarders in Marion Yard..... *115
- Estimates:
Up-to-Date..... †423
- Est Railway:
Color-Light Signals at Paris Terminal..... *51
- Eyelet Terminals:
Improved..... *227
- F**
- Fairmont Railway Motors, Inc.:
Ball-Bearing Loose Wheel for Motor Cars and Trailers.... *434
Motor Car for Signal Construction Crews..... *296
Side-Load Motor Car..... *192
- Failures, False-Clear:
Lesson from..... †389
- False-Clear Failure:
Lesson from..... †389
Trunnionless-Type Relay Designed to Eliminate..... 256
- Fansteel Products Company, Inc.:
New D-C Power Unit..... *108
Signal-Battery Chargers..... *261
Products Distributed by Hopkins Co..... 264
- Faraday Centenary:
Supplement to Bell System Technical Journal..... 436
- Fibre Insulations:
For A. R. A. Terminals..... *70
- Fight for Your Job..... †96
- Filler:
Storage Battery..... *191, *295, *360
Filling or Cementing Iron..... 141
- Filter Unit, Power:
Square D Company..... *296
- Fireproof Housings:
Signaling Equipment..... †353
- Flashing-Light Crossing Signals:
See Highway Crossing Signals.
- Florida East Coast:
Protection for Transmission Lines on..... *65
