

Thirty-First Volume—From January, 1938, to December, 1938

General Index

[Illustrated articles are indicated thus* Editorials are indicated thus†]

A

- A. & H. Corporation:
Circuit plug for rock slide fence.....*105
- Accident Prevention:
Bridge-detector signals.....†412
- Accidents:
1937 total highest since 1930.....310
B. & M. at East Somerville, Mass.....*455
Bridges, protect against washouts.....*588
C. P. derailment at Portneuf, Que.....592
C. St. P. M. & O. at Valley Junction Wis.....*718
Collision between Pennsylvania and D. & L. W. trains.....38
Decrease at grade crossings District Railway (England) caused by error in wiring.....476
Ft. W. & D. C. near Samnorwood, Tex.....476
Grade crossings in Iowa.....148
I. C. involving Rule 93.....*345
Increase at grade crossings.....116
I. C. C. statistics for June.....592
Investigations disclose signaling problems.....*522
Michigan Central near Monroe, Mich.....407
N. Y. C. at Syracuse, N. Y.....288
N. Y. C. involving signals and train-stop system.....*573
Pennsylvania during 1937.....298
Rail-highway grade crossings in 1937.....408
S. P. at Tortuga, Cal.....592
Three passengers killed in 1937 train accidents.....310
Western Pacific.....157
Adapting signaling to requirements.....†353
- Alton:
Automatic gates protect four tracks.....*234
Hearing on signaling change.....430
Short-arm crossing gates at Pontiac, Ill.....*638
- American Association of Railroad Superintendents:
Discussing signaling at annual meeting.....*403
- American Steel & Wire Company:
Mechanically-applied rail-head bonds.....240
- American Wood-Preservers' Association:
Groundline treatment of poles in the line.....306
- Anaconda Wire & Cable Company:
Booklet on cable.....546
Booklet on various types of cable.....262
Booklet—Vitrex insulated magnet wire Handbook on parkway cable.....174
- Arcturus Radio Tube Company:
Mir-O-Ray, new reflector material.....*706
- Arresters:
Fansteel Balkite Tantalum.....*243
G. E. adapter for.....*245
G. R. S. shunt-gap.....*248
- Association of American Railroads:
Change in Signal Section convention.....170
Chapter XXIV "American Railway Signaling Principles and Practices".....656
Crossing accidents.....478
Increase in grade crossing accidents.....116
Signal Section annual meeting.....720
Signal Section convention.....*219
Signal Section convention in retrospect.....†230
- Automatic Block Signals:
See Signals
- Automatic Gates:
See Gates
- Automatic Interlocking:
See Interlocking
- Automatic Train Control:
See Train Control
- Axle Bearings:
Grease cups for motor car.....714

B

- Baltimore & Ohio:
Hearing on signaling change.....430
Installs route interlocking.....*207
- Barriers:
B. & M. at Newmarket, N. H.....*152
Frisco at West Tulsa, Okla.....*350
- Batteries:
250-a.h. primary cell.....*239
A-c. primary on the Katy.....*231
Eveready air cell.....*105
Exide—Fifty Years of Achievement.....488
For remote switches.....*45
Primary, for signals on Katy.....*149

- Water jug for filling storage.....*714
- Bell Telephone Laboratories, Inc.:
Type-H carrier telephone system.....*525
- Belt Railway of Chicago:
Car retarders at Clearing yard.....*456
- Bins:
Noggle unit.....*706
- Bonds:
Inspecting stranded.....162
Mechanically-applied rail-head.....240
W. R. R. S. Co. rail-head.....*415
- Boston & Albany:
Construction.....118
- Boston & Maine:
Barriers at Newmarket, N. H.....*152
Damaged by floods.....*631
Unusual accident at East Somerville, Mass.....*455
- Brackets:
Ohio Brass Co. ground-wire.....*239
- Bridges:
Bridge detector signals.....†412
Detector signals.....†412
Ft. W. & D. C. washed out near Samnorwood, Tex.....476
Protecting against washout accidents.....*588
- Brotherhood of Railroad Signalmen of America:
Convention in Toronto.....521
- Bureau of Railway Signaling Economics:
Bulletin No. 9—Railroad Highway Grade Crossing Protection.....174

C

- Cable:
Anaconda booklet.....546
Communication construction on the Pennsylvania electrification.....*464
Locating partial grounds.....588
Painting.....710
Protecting parkway.....530
- Cable Sheaths:
Connecting ground wires.....106, 583
- Canadian National:
Auto-manual control at five crossings.....*701
- Canadian Pacific:
Washout causes derailment at Portneuf, Que.....592
- Capscrews:
Removing.....*647
- Car Retarders:
Belt Railway at Clearing yard.....*456
Improved yard operations on Lackawanna.....*25
Installed by Pennsylvania in yard at Harrisburg, Pa.....*632
- Cells:
250-a.h. primary.....*239
New Eveready primary.....*240
- Centralized Traffic Control:
All-relay interlocking replaces crossing gate on T. & N. O. at Corsicana, Tex.....*338
Complete subdivision of Burlington.....*83
Discussed by superintendents at annual meeting.....*403
Electric switch locks.....161, 587
Installed on D. & R. G. W.....*96
Making good progress.....†103
M. P. between Flinton, Ill., and Raddle Junction.....*569
Pennsylvania combines four interlockings.....*283
Protection at hand-operated switches.....†158
Replaces staff system on Milwaukee at Austin, Minn.....*299
Southern installs on 4 miles of single-track line.....*398
Subject of meeting of Cincinnati Signal Club.....170
T. & P. extends.....*214
Yard limit boards necessary?.....471
- Central of Georgia:
Spring switch at end of double track.....*155
- Central Railroad of New Jersey:
Construction.....58
- Chicago & North Western:
Ask ships not to delay "400".....476
- Chicago, Aurora & Elgin:
Construction.....118
- Chicago, Burlington & Quincy:
Carrier telephones.....*296
C.T.C. on complete subdivision.....*83
- Construction.....58
Installs code type interlocking at Hastings, Neb.....*451
- Chicago Great Western:
Electric semaphore lamps.....*405
- Chicago, Milwaukee, St. Paul & Pacific:
C.T.C. replaces staff system at Austin, Minn.....*299
- Highway crossing protection and spring switch.....*146
Rehabilitates large interlocking plant.....*687
Semi-automatic crossing gates.....*409
- Chicago, North Shore & Milwaukee:
Automatics at North Chicago, Ill.....*341
- Chicago, Rock Island & Pacific:
Automatic crossing gates in Chicago.....*578
Electric switch heaters at interlocking.....*514
Hearing on signaling change.....430
Installs 467 miles of automatic blocks.....*391
- Chicago, St. Paul, Minneapolis & Omaha:
Accident at Valley Junction, Wis., due to false-clear.....*718
Automatic blocks and three interlockings.....*30
- Cincinnati Signal Club:
Devotes meeting to C.T.C.....170
Hears talk on Balkite rectifiers.....172
- Circuit Breakers, Air:
Roller-Smith thermal-magnetic trip attachment.....488
- Circuit Controllers:
Slide-detectors.....*584
- Circuits:
Communication construction on the Pennsylvania electrification.....*464
Eliminating false warning at crossings.....*168
Locating trouble on line control.....647
Stray currents.....*305
Train dispatching.....*104
- Collisions:
See Accidents
- Color-Light Signals:
See Signals
- Commonwealth of Kentucky:
Construction.....720
- Communication Construction:
On the Pennsylvania electrification.....*464
- Communication Systems:
Carrier telephones on the Burlington.....*296
Pennsylvania demonstrates.....114
Telephones on snow plows on I. C.....114
Type-H carrier telephone.....*525
- Construction:
Increased in 1937.....*19
- Continental-Diamond Fibre Company:
Dilecto catalog.....662
- Conventions:
B. R. S. of A. at Toronto.....521
Signal Section annual meeting.....720
Signal Section in retrospect.....†230
Signal section meets at Chicago.....*219
- Corning Glass Works:
Glass insulating tape.....*355
- Cotter Keys:
Method of straightening.....*414
- Coupler:
Quick-detachable plug for relays.....*248
- Crank Arms:
Bending.....*714
- Crossing Protection:
\$40,000,000 for grade crossing protection and elimination.....310
Alton, short-arm crossing gates at Pontiac, Ill.....*638
Auto-manual control at five crossings on C. N.....*701
Automatic crossing gates on Rock Island in Chicago.....*578
Automatic gates protect four tracks on Alton.....*234
Barriers on B. & M.....*152
Bill authorizing work signed by president.....424
Eliminating false warning.....*168
Flashing-light signals to be installed in Illinois.....362
Floodlights on M-K-T.....*41
Frisco installs retarding barriers at West Tulsa, Okla.....*350
Gates protect three tracks on N. Y. C.....*101
Illuminated signs.....*243
In case of signal failure.....110
Lamps on gate arms.....416
Lights on gate arms.....†301

Milwaukee, on the	*146
Milwaukee, semi-automatic gates	*409
Obligation for	44
Senate cuts authorizations for high-	
ways and crossing work	362
Utah Highway Commission proposes	
program	476
Crossings:	
Light-traffic, to be closed	656
Crossing Signals:	
See Crossing Protection	

D

Delaware, Lackawanna & Western:	
Collision with Pennsylvania	38
Improves yard operations	*25
Denver & Rio Grande Western:	
All-relay plant replaces mechanical	
interlocking at Pueblo, Colo.	*335
Installs C.T.C.	*96
Remote control at Pueblo, Colo.	*289
DeVilbiss Company:	
Catalog of spray-painting and finish-	
ing equipment	488
Discharge Resistor:	
G. E. Thyrite	*240
District Railway (England):	
Error in wiring causes accident	476
Door Hinges: Repairing	250
Drills: Chip Catcher	*303

E

Edison, Inc., Thomas A.:	
250-a.h. primary cell	*239
Electric Equipment:	
Reconditioning flooded	488
Electric Lighting:	
Changing to	304
Electric Storage Battery Company:	
Exide Batteries—Fifty Years of	
Achievement	488
Introduces "Mr. Exide"	488
Observes golden anniversary	*370
Electrification:	
Communication construction on the	
Pennsylvania	*464
Pennsylvania interlocking changes	*509
Pennsylvania signaling	*137
Electro-Motive Corporation:	
Construction	58
Elgin, Joliet & Eastern:	
Installs A. P. B. signaling	*39
England:	
Train control	116

F

False Warnings:	
Eliminating at crossings	*168
Fansteel Metallurgical Corporation:	
Bulletin FB-5—High and low rate	
schemes for Balkite rectifiers	426
Bulletin FB-6 on tantalum capacitor	
lighting arresters	370
Issues bulletin on Tantaloy tipped	
tools	58
Tantalum arrester	*243
Fences:	
Improving slide-detector	*529
Floodlights:	
Supplement signals at crossings on	
M-K-T	*41
Floods:	
Damage Boston & Maine	*631
Florida East Coast:	
Construction	118
Ft. Worth & Denver City:	
Bridge washed out at Samnorwood,	
Tex.	476
Foundations:	
Raising	*528
Fuses:	
Puller	*160

G

Gates:	
Alton, protect four tracks	*234
Alton, short-arm, at Pontiac, Ill.	*638
Automatic, on Rock Island in Chicago	*578
Lamps on arms	*301, 416, 534
Milwaukee installs semi-automatic	*409
New type short-arm	*246
N. Y. C., protect three tracks	*101
General Cable Corporation:	
Change in address of Chicago office	370
General Electric Company:	
Adapter for arrester	*245
Atomic-hydrogen welding equipment	*415
Bulletin "Reconditioning Flooded Elec-	
tric Equipment"	488
Mercury-button limit switch	*706
New booklet—"When You Can Meas-	
ure"	318
"Spirakore" construction in transform-	
ers	*646
Thyrite discharge resistor	*240
Vacuum-tube timer	*585
General Railway Signal Company:	
A-c. vane track relay	*238
Construction	58
Quick-detachable plug coupler for re-	
lays	*248
Shunt-gap arrester	*248
Train-control plug boards	*237

Glass Insulating Tapes:	
Corning Glass Works	*355
Gould Storage Battery Corporation:	
Acquires power battery department of	
USL Battery Corporation	592
Bulletin on storage batteries for sta-	
tionary use	262
Grease Cups:	
For motor car axle bearings	714
Ground-Ohmer:	
Herman H. Sticht & Co.	*646
Ground-Wire Brackets:	
Ohio Brass Co.	*239
Ground Wires:	
Connecting to cable sheaths	106, 583

H

Highway Crossing Protection:	
See Crossing Protection	
Highway Trailer Company:	
Booklet on highway earth boring ma-	
chines	174
Hinges: Repairing door	250
Holder: For chise and punches	*104
Hudson & Manhattan: Construction	592

I

Illinois Central:	
Accident involving Rule 93	*345
Telephones on snow plows	114
Train control petition denied by I.C.C.	645
Indianapolis Union:	
Signaling and interlocking at Indian-	
apolis, Ind.	*640
Indicators: Westinghouse power-level	*355
Institution of Railway Signal Engineers:	
1938-1939 program	666
Instrument Cases:	
Dustless ventilators	357
Welded sheet-steel case mountings	418
Instruments:	
Sticht & Co., ground-ohmer	*646
Westinghouse Type-E socket	488
Insulating Tapes:	
Corning Glass Works, glass yarn	*355
Handy holders for	*528
Insulation:	
Non-inflammable colored	585
Okonite Okoseal	488
Simplex rubber, for wires and cables	662
Insulators:	
O-B radio-proof pin-type	488
Interborough Rapid Transit Company:	
Construction	172, 258, 592
Ordered to install signaling	656
Interlockings:	
An example of modernization	*353
B. & O. C. T. installs route type	*207
Burlington installs code type at Hast-	
ings, Neb.	*451
Clearing of signals at automatic	*709
D. & R. G. W. mechanical, replaced by	
all-relay at Pueblo, Colo.	*335
Discussed by superintendents at annual	
meeting	*403
Frisco at Winfield, Kan.	*575
Indianapolis Union	*640
Indication lamp remover	*528
L. & N. E., all-relay, in England	362
L. & N. E., relay	*142
M. C. replaced by remote control at	
Kalamazoo, Mich.	*292
Milwaukee rehabilitates large plant	*687
Modernization of terminal plants	*644
Omaha installs	*30
Pennsylvania, changes	*509
Pennsylvania combines four	*283
Release for automatic	1582
Rock Island, electric switch heaters	*514
T. & N. O., all-relay, replaces cross-	
ing gate at Corsicana, Tex.	*338
Interstate Commerce Commission:	
Accident investigations disclose signal-	
ing problems	*522
Amends order regarding statistics	53
Bureau of Statistics summary of high-	
way crossing accidents	408
Date for annual reports extended	116
I. C. train control petition denied	645
Provides forms for failure reports	53
U. S. Civil Service Commission ex-	
amination	53

J

Junction Boxes:	
Base-of-post	*241
Peerless line	*241
Peerless parkway cable	*242

K

Kinks:	
Bending crank arms	*714
Checking shifting of material on a	
motor car	586
Coiling wires	*647
Drill chip catcher	*303
Fuse puller	*160
Grease cups for motor car axle bear-	
ings	714
Handy holders for tape	*528
Holder for chisel and punches	*104
Indication lamp remover	*528
Key and socket wrench	*586

Locating trains when telephone is not	
available	586
Locating trouble on line control cir-	
cuits	647
Low-resistance testing set	*303
Melting pot for electric soldering iron	586
Painting signal blades	256
Paint saver	104
Polarity of transformers	*714
Raising foundations	*528
Reading lamp voltages	*250
Removing capscrews	*647
Repairing door hinges	250
Straightening cotter keys	*414
Tag holder and guide	*647
Temporary relay rack and platform	*414
Testing permanent magnets	*160
Tobacco sack for weighting messages	*586
Train dispatching circuits	*104
Water jug for filling storage batteries	*714
Wire peeler	*414

L

Lamps:	
G. W., electric semaphore	*405
On gate arms	416, 534
Reading voltages	*250
Removing from indication panel	*528
Le Carbone Company:	
Bulletin No. 6—air-depolarized primary	
cells	426
Lima Locomotive Works:	
Construction	58
London & North Eastern:	
Construction	662
Installs all-relay interlocking	362
Relay interlocking at Leeds	*142
Louisville & Nashville:	
Train control tests	114

M

Magnets: Testing permanent	*160
Markers: Grade signal	649
Melting Pot:	
For electric soldering iron	*250
Messages:	
Tobacco sack for weighting	*586
Meters:	
Roller-Smith catalog	488
Western R. R. Supply Co. volt-ohm-	
ampere	*242
Weston decibel	*415
Michigan Central:	
Installs remote control at Kalamazoo,	
Mich.	*292
Rear-end collision near Monroe, Mich.	407
Microphone Track Instrument:	
U. S. & S. Co.	*247
Mir-O-Ray:	
New reflector material	706
Missouri-Kansas Texas:	
A-c. primary	*231
Floodlights at highway crossing	*41
Primary battery for light signals	*149
Signaling yard leads	*694
Missouri Pacific:	
Automatic block signals	*696
C.T.C. between Flint, Ill., and Rad-	
dle Junction	*569
Improves signaling performance	*467
Motor Cars:	
Checking shifting of material on	586
Grease cups for axle bearings	714

N

National Carbon Company:	
Eveready air cell battery	*105
Primary cell	*240
New Books:	
A.A.R. "American Railway Signaling	
Principles and Practices"	656
Photoelements and Their Application	413
New Devices:	
250-a.h. primary cell	*239
Adapter for arrester	*245
A-c. vane track relay	*238
Arcturus Radio Tube Co., reflector ma-	
terial	*706
Atomic-hydrogen welding equipment	*415
Base-of-post junction box	*241
Circuit plug for rock slide fence	*105
Crossing gate	*246
Decibel meter	*415
Eveready air cell battery	*105
Flame-proof insulated wire	236
G. E. mercury-button limit switch	*706
G. E. "Spirakore" construction in	
transformers	*646
Glass for crossing signals	355
Glass insulating tapes	*355
Ground-wire bracket	*239
Hand-operated switch-and-lock mechs-	
anisms	*237
Illuminated signs	*243
Improved slide-detector circuit con-	
troller	*584
Insulation, non-inflammable colored	585
Insulation, Okonite Okoseal	488
I-line-junction box	*241
Malleable iron pole stop	*355
Mechanically-applied rail-head bonds	240
Microphone track instrument	*247
Noggle unit bins	*706
Parkway junction box	*242
Peerless test switch	*238

- Plug-in relay *245
Power-level indicators..... *355
Primary cell *240
Quick-detachable plug coupler for re-
lays *248
Rail-head bond *415
Sensitive alarm relay shows current
flow *245
Shunt-gap arrester *248
Sticht & Co., ground-ohmer..... *646
Strain clamp loop *585
Tantalum arrester *243
Thyrite discharge resistor *240
Train-control plug boards *287
Vacuum-tube timer *585
Volt-ohm-ampere meter *242
Westinghouse electric switch heaters..... *646
- New York Board of Transportation:**
Construction 424
- New York Central:**
Accident at Syracuse, N. Y. 288
Accident involving signals and train-
stop system *573
Automatic gates protect three tracks..... *101
Signaling for higher train speeds *627
- Noggle Products Company:**
Unit bins *706
- Northern Pacific:**
Completes main-line signaling *346
Construction 58
- O**
- Ohio Brass Company:**
Booklets—insulators, angle clamp, and
neutral clamp 318
Ground-wire bracket *239
Instructions on applying hammerhead
signal bonds 262
Radio-proof pin-type insulators 488
Strain clamp loop *585
- Okonite Company:**
Book on insulation 174
Flame-proof insulated wire 236
Non-flammable colored insulation 585
Okoseal insulation 488
- Open Forum:**
110-volt machines for outlying switches
Early telephone train dispatching 534
Grounding cable sheaths 583
Lamps on gate arms 534
Obligation for crossing protection 44
Spring switch solves peculiar problem
Water can stops train 534
- P**
- Paint saver 104
Painting:
Cable 710
DeVilbiss spray and finishing equip-
ment 488
Signal blades 586
- Parkway Cable:**
Protecting 356
- Peerless Manufacturing Corporation:**
Line-junction box *241
Parkway junction box *242
Test switch *238
- Pennsylvania:**
Collision with Lackawanna 38
Communication construction on elec-
trified territory *464
Construction 58
Demonstrates train communication sys-
tem 114
Electrification signaling *137
Four interlockings combined *283
Installs retarders in yard at Harris-
burg, Pa. *632
Interlocking changes *509
- Pennsylvania Public Utility Commission:**
Crossing accident statistics for 1937..... 298
- Photoelements and Their Application:**
By Dr. Bruno Lange 413
- Point Detectors:**
Switch circuit controllers 650
Pole line survey 592
- Poles:**
Groundline treatment in the line 306
Malleable iron pole step *355
Treatment after signs of decay 306
- Power Factor Improvement:**
Benefits to be gained *693
- Power Gates Company:**
Crossing gate *246
Succeeds Automatic Crossing Gates,
Inc. 56
- Power Switch Machines:**
Batteries for remote control *45
Lackawanna improves yard operations
Primary Cells *25
- Primary Cells:**
LeCarbone Company—Bulletin No. 6.... 426
- R**
- Railroad Accessories Corporation:**
Supplement to catalog 426
- Railroad Operation and Railway Signaling:**
..... 357, 418, *473, *531, *589, *650, *711
- Rectifiers:**
High and low rate schemes for Balkite
Relation of signaling to train operation..... *354
- Relays:**
A-c. vane track *238
Changing 166
G.R.S. quick-detachable plug coupler..... *248
Sensitive alarm, shows current flow..... *245
Temporary rack and platform *414
U.S. & S. plug-in type *245
- Remote Control:**
D. & R. G. W. installs at Pueblo, Colo. *289
M. C., replaces mechanical interlock-
ing at Kalamazoo, Mich. *292
- Roller-Smith Company:**
Catalog of meters and switches 488
Catalog on oil circuit breakers 662
Thermal-magnetic trip attachment for
air circuit breakers 488
- S**
- St. Louis-San Francisco:**
Automatic interlocking at Winfield,
Kan. *575
Construction 592
Installs retarding barriers at West
Tulsa, Okla. *350
- St. Louis Southwestern:**
Construction 720
- Seaboard Air Line:**
Construction 546
- Signal Appliance Association:**
Issues booklet describing activities..... 262
Meets at Chicago 229
- Signal Equipment:**
Prepare now for winter *527
- Signaling:**
Accident investigations disclose prob-
lems *522
Adapting to requirements *353
Applications for changes. 53, 116, 170,
258, 310, 362, 426, 476, 540, 598, 658,
720
At spring switches *470, 648
Auxiliary forms *527
B. & O. C. T. installs route inter-
locking *207
B. & M. damaged by floods *631
Burlington installs code type interlock-
ing at Hastings, Neb. *451
C. N., auto-manual control at five
crossings *701
Construction increased in 1937 *19
Discussed by superintendents at an-
nual meeting *403
E. J. & E., A. P. B. installs *39
India, power factor improvement *693
Indianapolis Union, and interlocking *640
"Inoperative arms" and "lighted mark-
ers" 112
Interborough Rapid Transit Company,
to be installed 656
I. C. C. annual statistics 538
L. & N. E., relay interlocking *142
Milwaukee, C.T.C. replaces staff sys-
tem at Austin, Minn. *299
M. P., automatic blocks *696
M. P. improves performance *467
N. Y. C., for higher train speeds *627
Outlook for *43
Pennsylvania electrification *137
Relation to train operation *354
Southern, automatic block *398
Southern, spring switches *516
T. & P. extends C.T.C. *214
Train operation *413
Yard leads *694
- Signal Inspection Act:**
I. C. C. provides forms for reports..... 53
- Signal Lamps:**
Converting oil semaphore to electric... 304
- Signals:**
Bridge-detector *412
Clearing at automatic interlockings *709
Crossing protection in case of failure... 110
Flashing-light, to be installed in
Illinois 362
Grade markers at automatic block 649, 711
G. W., electric semaphore lamps *405
Katy, searchlight, operated by primary
battery *149
Light, as train-order *256
Milwaukee, flashing-light, and semi-
automatic gates *409
Milwaukee, highway crossing protec-
tion and spring switch *146
N. Y. C., color-light replaces sema-
phores *627
Non-stop permissive automatic *707
N. P. completes main-line signaling... *346
North Shore installs automatics at
North Chicago, Ill. *341
Omaha installs automatic blocks *30
Painting blades 586
Rock Island installs 467 miles of auto-
matic blocks *391
Spread of color-light 472
Time locking of dwarf 356
U. S. & S. Co. spreadlight cover
glasses for crossing signals 355
- Signs:**
U. S. & S. illuminated highway *243
- Simplex Wire & Cable Company:**
Data sheet on rubber insulation for
wires and cables 662
- Slide-Detector:**
Circuit controller *584
- Slide Detector Fences:**
Improving 529
Plug type controller for *105
- South African Railways:**
Train operating methods 592
- Southern:**
Signaling and spring switches..... *398, *516
Southern Pacific:
Accident at Tortuga, Cal. 592
- Spreadlight Lens:**
Color-light signals 472
- Spring Switches:**
Discussed by superintendents *403
- Junction and end-of-double-track pro-
tested on C. of G. *155**
- Milwaukee**
Signaling at *1471, 648
Solves peculiar problem 413
Southern between Beverly, Tenn., and
Clinton *398
Southern between Knoxville, Tenn.,
and Asheville, N. C. *516
Testing oil-buffer 417
- Statistics:**
1937 crossing accident total highest
since 1930 310
Crossing accidents in Pennsylvania dur-
ing 1937 298
Grade crossing accidents decrease 476
I. C. C., accidents for June 592
I. C. C. annual report 538
Iowa grade crossing accidents 148
Pole line survey 592
Rail-highway grade crossing accidents
in 1937 408
Signaling construction increased in
1937 *19
Three passengers killed in 1937 train
accidents 310
- Sticht & Company, Herman H.:**
Ground-ohmer *646
- Strain Clamp Loop:**
Ohio Brass Co. *585
- Switch-and-Lock Mechanisms:**
U. S. & S. hand-operated *239
- Switch Circuit Controllers:**
And point detectors 650
- Switches:**
110-volt machines for outlying loca-
tions 159
Electric locks in C.T.C. territory 161, 587
G. E. mercury-button limit *706
Protection in C.T.C. territory *158
Remotely controlled on C. of G. *155
Rotary, Roller-Smith catalog 488
Signaling at spring switches 648
- Switch Heaters:**
Electric, at Rock Island interlocking... *514
Westinghouse electric *646
- T**
- Tag holder and guide *647
- Telephones:**
Carrier on Burlington *296
Early train dispatching 534
Locating trains when not available..... 586
On snow plows on I. C. 114
Train dispatching on Omaha *30
Type-H carrier system *525
- Temiskaming & Northern Ontario:**
Construction 258
- Terminals:**
Modernization of interlocking plants... *644
- Testing:**
Oil-buffer spring switches 417
- Testing Equipment:**
Westinghouse field and truck type out-
fits for testing oil 488
- Test Sets:**
Low-resistance *303
- Test Switch:**
For batteries, signals, gates, etc. *238
- Texas & New Orleans:**
All-relay interlocking replaces cross-
ing gate at Corsicana, Tex. *338
- Texas & Pacific:**
Extends C.T.C. *214
- Time Locking:**
Dwarf signals 356
- Timer:**
Vacuum-tube *585
- Time Releases:** For automatic interlocking *582
- Tobacco Sacks:** For weighting messages... *586
- Tools:**
Cap screws, removing *647
Chisel and punches, holder for *104
Drill chip catcher *303
Key and socket wrench *586
Melting pot for electric soldering iron
Strain clamp loop *250
Tag holder and guide *647
